SENSES Learning Hub welcomes and celebrates diversity and the strengths it brings to our schools and communities. We aim to enable everyone to fulfil their potential. To do this we must give everyone equal access to education opportunities.

Treating everyone the same does not necessarily give people equality of opportunity. At times we need to treat different people in a different way to give them equal access to our provision. With this in mind, we will, on occasion, invite external sources to talk to staff and students on specialised subjects (eg. LGBTQ+)

Our Responsibilities

The Equality Act 2010 and The Children and Families Act 2014 states that we must not treat people unfairly because of age, disability, sex (gender), gender reassignment, sexual orientation, race, religion or belief, pregnancy or maternity, marriage or civil partnership. These are called “protected characteristics”.

As a provision we must:

- Stop unlawful discrimination, harassment and victimisation;
- Make sure that people have equality of opportunity whether or not they have a particular protected characteristic; and
- Build good relations between people who share a protected characteristic and those who don't.

Meeting our Responsibilities

Everyone has a part to play to realise our vision for SENSES Learning Hub to be an even better place for everyone to learn and work. We will work with our communities and partners to achieve our vision.

As part of meeting our responsibilities we make the following commitments:

- We will treat staff and students with dignity and respect.
- We will develop our students and staff to help us meet our equality duties.
- We will use information and talk to people to identify where inequality exists so that we can plan to tackle it.

When it will help us to improve our provision and to understand how we are meeting our equality duties, we will ask questions about people's protected characteristics, including age, race, gender and disability. We will keep personal data confidential.

When we consider changing our priorities, we will make sure that those making the decision know how the change could affect people with any of the protected characteristics. We will

collect information about how people might be affected before making a decision. If the change might cause difficulties for people with a protected characteristic, we will do our best to find ways to reduce this impact. If we cannot we will think carefully about whether we need to make the change to achieve a legitimate aim.
